SUMMARY

Informatics Engineering graduate with a strong foundation in Fullstack Development, specializing in Backend systems. Experienced in developing scalable web applications and tools, delivering structured code and efficient database management. Strong analytical and problem-solving skills, with a proven ability to collaborate effectively in team environments to achieve project goals.

EDUCATION

Maranatha Christian University 2022 - 2026
Bachelor of Computer: Informatics Engineering
Expertise : Backend Development & Prompt Engineering

WORK & ORGANIZATIONAL EXPERIENCE

PT Royal Medicalink Pharmalab June 2026 - Now
Backend Developer

- System Maintenance - Identified and resolved software bugs to ensure the stability of existing systems.
- System Development - Developed and optimized ongoing backend systems for better performance and scalability.
- Data Management - Processed and managed sales and marketing data entries to support promotional campaigns.

Maranatha Christian University Sep 2023 - Jan 2024
Lecturer Assistant

- Basic Programming - Supported students in fundamental coding.
- Advanced Database - Assisted developing scaleable database management

Faculty Student Senate (SEMAFIT) Feb 2023 - Jan 2024
Academic Division Member

- Actively executed and supported the implementation of the Academic Division's core programs to ensure targeted goals were met.
 - Collaborated cross-functionally with other divisions to assist in organizing and executing various student organization events.
-

PROJECTS
• Administrative Coordinator, New Student Orientation 2023 (INTEGER 2023)

Code Cite (Web & VS Code Extension) Sep 2025 - Jan 2026
Tech Stack: TypeScript, HTML, Babel.js, Tailwind CSS

- Developed a Visual Studio Code extension to help developers track and cite code snippets directly within the IDE.
- Built a supporting web application for centralizing, visualizing, and formatting exported code references.

SIMBA-APP

Mar 2025 – Jul 2025

Tech Stack: Laravel, Blade, HTML, Bootstrap, JavaScript, MySQL

- Developed a web-based student attendance module as part of a Practical Work program at Maranatha Christian University.
- Digitalized the academic reporting and official records system to improve the efficiency of attendance tracking and data management.

HR Management System

May 2026 — Present

Tech Stack: React.js, Node.js, TypeScript, PostgreSQL, Tailwind CSS

- Developing a comprehensive web-based HR platform to streamline employee data, payroll, and leave management.
- Designing an advanced attendance system integrating GPS tracking and camera verification for secure logging.

MimbarCast

May 2026 — Present

Tech Stack: HTML, CSS, JavaScript, Fabric.js, WebSockets

- Built a real-time web application using WebSockets to enable remote control of digital whiteboards and Bible verse displays from mobile devices to PC projectors.

Storevo Backend

March 2026 — Present

Tech Stack: NestJS, TypeScript, Prisma, MySQL, Swagger API

- Engineered a robust backend API to handle core business logic, database operations, and data integration for retail/bakery POS and inventory systems.

SKILLS

- **Language:** Bahasa Indonesia (Native), English (Intermediate)
- **Soft Skills:** Teamwork, Leadership, Critical Thinking, Adaption, Communication, Problem Solving
- **Hard Skills:**
 - **Programming Languages:** PHP, TypeScript, Python, Kotlin, JavaScript, Java.
 - **Web Development:** Laravel, Node.js, React.js, Vue, Django.
 - **Mobile Development:** Flutter, Jetpack Compose
 - **Database & Cloud:** MySQL, Firebase.
 - **Tools:** Git/GitHub, Postman, Microsoft Office, Google Workspace.
